

## Infinity Series

PRL's dexterous aluminum infinity railing series contributes to an immaculate composition to any top rail style. This series is engineered to offer strength for comfort and stability.

The standard finish is environment friendly with a powder coat that is durable and low maintenance. We offer a diversity of finishes to match any of your projects.

PRL offers state-of-the-art fabrication in house, complete systems with glass and the fastest lead time.

Proving you with a wide range of solutions for almost any glass railing applications. Among others are,

- Standard Glass Railing
- Topless Glass Railing
- Fencing
- Custom Railing
- Handrail
- Pool Surrounds
- Wind & Privacy Wall
- Gates

200 Series Railing

## Infinity Series

### Quality and Strength

Infinity Railing are Fabricated with the highest grade extruded Aluminum, 40 times stronger than wood. Aluminum is one of the sturdiest material that exists in North America. This railing can handle tough weather conditions which it prevents rusting.

Infinite Series Railing is engineered to provide maximum strength using: ASTM 6063-T5 or 6005A-T6 Aluminum.

### Systems

The Infinity Railing welded system is the most cost effective, yet offers many pleasing qualities to your project. This system is not only vibrant to the eye, but it easily adapts to any proposal.

Choose the top rail that best fits your design/ application and works the finest, out of the four we have provided.

### Finishes

Architectural Metals Designed, Engineered and Manufactured By PRL with a high-end powder coating to provide the highest performance from Corrosion, Heat, Impact, Abrasion, Fading and Weather Conditions.

#### Standard Colors
